

GRADUATION PROJECT

Houra Platform

A digital platform where people exchange skills and services using time — instead of money — as the unit of value.

Skill Exchange — Powered by Time

What Is Houra?

Houra is a digital platform where users exchange services based on time instead of money. One hour of any service is always worth one hour of any other service.

Promotes Collaboration

Builds a culture of mutual help and shared knowledge across the community.

Empowers Skilled Individuals

Helps people with valuable skills but limited financial resources be recognized.

1 Hour Given

=

1 Hour Received

No matter the skill — teaching a language, fixing a laptop, or tutoring math — every hour holds equal value.

Encourages Fair Exchange

Every hour is treated equally, regardless of the type of service provided.

Core & Advanced Features

CORE FEATURES

User Profiles

Showcase skills, availability, and time balance.

Time Tracking System

Automatically credits and deducts hours per exchange.

Rating & Review System

Builds trust between members after each exchange.

Notifications & Alerts

Keeps users updated on requests and matches.

ADVANCED FEATURES

Advanced Filtering & Search

Find the right skill or service quickly.

Rewards & Incentives

Encourage participation in high-demand categories.

In-App Messaging

Direct, secure communication between members.

Platform Integrations

Connects with external tools and communities.

How the Platform Sustains Itself

The core exchange service stays free to preserve accessibility. Sustainability comes from four complementary revenue streams:

Premium Subscriptions

Advanced features and priority matching for paying members.

In-App Advertising

Small businesses and service providers can promote to the community.

Small Transaction Fees

Applied only after an initial number of free exchanges.

Institutional Partnerships

Collaborations with universities for paid workshops and events.

Business Model Canvas

Key Partners

Universities & training centers
Tech companies
Non-profit organizations

Key Activities

Platform development
Marketing & user acquisition
Exchange management
Security & trust assurance

Value Proposition

Skill & time exchange
Cost-free access to services
Community empowerment

Customer Relationships

Social media presence
Customer support
Loyalty & recognition system

Customer Segments

Students & graduates
Freelancers
Homemakers
Elderly & retirees
NGOs

Key Resources

Robust tech platform
Active user base
Support & moderation team

Channels

Website & mobile app
Social media
Email & live chat

Cost Structure

Development & maintenance
Marketing
Security & hosting

REVENUE STREAMS

Subscription fees • Transaction fees • Paid events & workshops • In-app advertising

TARGET USER

Buyer Persona

The Lifelong Learner

Youth to elderly • Male & female
Urban & semi-urban • Worldwide

"I want to learn new skills and help others — without money being the barrier."

Industries: Technology, education, consulting, design,
translation, language & manual skills

GOALS & NEEDS

- Learn new skills without financial cost
- Collaborate through service exchange
- Be empowered by valuable skills

BEHAVIOR

- Committed to helping others
- Serious and reliable
- Interested in continuous learning

CHALLENGES

- Socially hesitant to interact at first
- Concerned about server reliability
- Wary of low-quality service claims

Challenges & Proposed Solutions

Lack of trust among users

Strict rating & review system for every exchange

Imbalance in service demand

Reward incentives offered for in-demand services

Risk of system exploitation

Minimum service contribution required before requesting

Difficulty generating early revenue

Launch with a free pilot phase before monetization

FOUNDATION

Vision, Mission & Core Values

VISION

To become the global leader in the time economy, where human value is measured by time and creativity, not material wealth.

MISSION

Empower individuals and communities to exchange skills and services using time as currency, fostering social solidarity.

CORE VALUES

Equity

1 hour of time equals 1 hour of time, regardless of the service type.

Trust

Service quality ensured through member ratings and skill verification.

Collaboration

Interconnected communities built on knowledge exchange, not competition.

Sustainability

Promoting the recycling of skills and human resources responsibly.

Inclusivity

Open opportunities for everyone — students, retirees, low-income individuals.

Strategy & Tactics

STRATEGIES

Build a Flexible Digital System

App/website with a time-based accounting system (1 hour = 1 point); secure transaction tracking.

Partner with Local Entities

Collaborate with charities, universities, and community centers to promote and train users.

Awareness Campaigns

Highlight success stories of members who met their needs through the platform.

Horizontal & Vertical Expansion

Start with small local communities, then expand geographically and diversify services.

TACTICS

Time Guarantee System

If a service fails, the deducted time is refunded to the member.

Service Categories

Organized into education, arts, home maintenance, caregiving, and more.

Community “Exchange Days”

Face-to-face service swap events to build stronger local trust.

“First Hour Free” Program

New members try a service without deducting their balance.

Goals & Roadmap

1

Short-Term

6–12 months

Attract 1,000 active members in one city

Achieve 500 service exchanges per month

Secure partnerships with 5 local institutions

2

Medium-Term

1–3 years

Expand to 5 new cities

Add specialized services (career coaching, elderly care)

Achieve an 85% member satisfaction rate

3

Long-Term

5+ years

Gain recognition as an economic alternative in education & healthcare

Launch a transferable digital time currency (TimeCoin)
